

Find it Fix it

Three Easy Steps

1. Photograph hazards that you see in the workplace. These can be things like leaky faucets, icy freezers, or trip/slip hazards like stairs without rails.
2. Submit them to supervisors for approval and repair! Remember - it's important to find, but more important to fix. Be sure to ask if the photo qualifies for employee spotlight or your facility's own Find-It-Fix-It.
3. Submit your photos directly to RM@ShomerInsurance.com for entry into our quarterly raffles!

****Please ensure that your photos do not show residents, guests; or other employees faces. These photos will not be accepted and are illegal to possess****
