

Shomer Solutions

Exclusively for Shomer Insurance Clients

Job Description Tracking

Quickly build job descriptions to clearly communicate employee roles, responsibilities, and performance expectations.

Incident Track

Easily track all types of incidents, including near-misses. Document your incidents quickly and easily, and use Trend Analytics to focus your training and safety improvement efforts.

Training Track

Create a complete and automated online training program. Complete with reminders of upcoming/overdue training, and can be used for multiple positions.

Hazcom Compliance

Use the tools within the Risk Management Center to create, implement, manage, and monitor a GHS-compliant hazard communication program.

SOS Track

Fulfill OSHA requirements to have a Safety Data Sheet available to all employees. Organize, manage, and distribute data easily and ensure compliance and control for your facility.

Audit Track

The easy-to-use web application that helps create and maintain audits, surveys, and questionnaires.

HR & Benefits Library

Your single source for answers to all your HR questions. The library is a practical resource to professionally address your human resources needs. It's like having an HR department at your fingertips.

IIPP Compliance Program

Let us guide you on the creation of your own IIPP. This OSHA recommended program can proactively reduce accidents and losses, and reduce your organization's total cost of risk

COI Track

Streamline your Certificate of Insurance management to minimize risk by maintaining up-to-date records.

Job Hazard Analysis & Safety Observation Track

Identify existing and potential hazards within each position and implement a behavior-based safety program to reduce these hazards.
